

Our High Density Polyethylene (HDPE) platform slides are manufactured from high quality HDPE and all comply to BS EN 1176. These slides are designed to be mounted to a platform and are not freestanding. Each one of our HDPE slides are suitable for children from ages 2 and up.

SL13 - HDPE Platform Slide

Standard Width

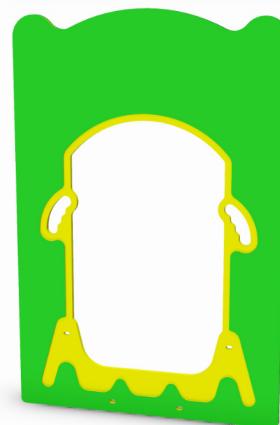

Product Code	Description	Height	Length	Width	Weight
SL13 - 060	HDPE Platform Slide	0.6m	1.12m	0.6m	10kg
SL13 - 090	HDPE Platform Slide	0.9m	1.70m	0.6m	16kg
SL13 - 120	HDPE Platform Slide	1.2m	2.03m	0.6m	23kg
SL13 - 150	HDPE Platform Slide	1.5m	2.22m	0.6m	32kg

Each of our HDPE slides are delivered in one piece attached to a specially made pallet to make installation and delivery straightforward.

Required slide entry panel (Sold separately)

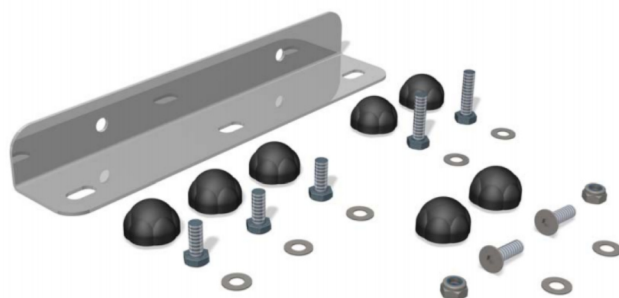

Each slide requires an entry panel with threaded inserts pre-moulded into the slide for easy fixing. Slides should be fixed to the platform and ground surface.

Our entry panels are made from durable 19mm HDPE to minimise playground maintenance and ensure a long lasting and colourful playground.
