Lancelot is your LEDON Castle basic model

Our **Castle** series offers play equipment for every requirement. Lancelot is the basic model, which is designed for challenges as well as fun. The short rope ladder extends up to the tower, which has a floor height of 90 cm, from where you can whizz down the slide. The transparent panes in the roof create coloured patterns on the floor and the surrounding ground, inspiring games such as 'the floor is lava', hopscotch or even a dance routine.

Lancelot is ideal for small areas

Using imitation fieldstones, torches and raw boards, we have created a convincing impression of being on a real knight's castle. Beneath the floor is a panel where diamonds can be hidden and found, activities that strengthen children's fine motor skills, creativity and cognitive abilities. Lancelot is suitable for playgrounds where space is limited – all it requires is an area of 6.2 x 4.2 metres.

LEDON Castle is your guarantee of a high-quality playground

- Designed in cooperation with children to ensure the highest possible play value
- Developed using materials that require low maintenance
- Made in Denmark
- Short delivery times
- We prepare detailed design proposals to show what your new playground will look like.
- The entire Castle series is approved by TÜV SÜD in accordance with the latest EN 1176 standard
