Multiple play experiences in a limited area

Avalon is one of the smaller **LEDON Castle** models, and is therefore suitable for playgrounds where space is limited. The tower is designed to stimulate children's motor, linguistic and social development. And with a rope ladder, slide and castle symbols, they are guaranteed hours of fun.

Transparent coloured panels spark children's imagination

Transparent panes in the roof windows and on one side of the tower encourage a wide variety of different games, play and interaction. The sunlight passes through the panes, projecting coloured patterns onto the floor and ground as the sun travels across the sky.

LEDON Castle is your guarantee of a high-quality playground

- Designed in cooperation with children to ensure the highest possible play value
- Developed using materials that require low maintenance
- Made in Denmark
- Short delivery times
- We prepare detailed design proposals to show what your new playground will look like.
- The entire Castle series is approved by TÜV SÜD in accordance with the latest EN 1176 standard
