A model with motor challenges

All **LEDON Castle** models are similarly themed, but incorporate different activities depending on the model. The George play environment is designed, in particular, for children wanting many physical challenges in a limited space. The George play system requires an area of 6.5 x 6.3 metres. The play environment is primarily designed for 5 to 7-year-olds. At the same time, younger children are able to play and hide in the hanging prison, where movable keys and rubber slats inspire many hours of fun and games.

Climbing wall panel and rope tunnel stimulate learning abilities

Children reach the tower via a climbing wall panel or the large rope tunnel. Extensive cross-coordination is needed as children have to use their arm and leg muscles simultaneously. Cross-coordination stimulates neural activity between the two sides of the brain, which is very important for children's learning abilities, for example when learning to read or do maths.

LEDON Castle is your guarantee of a high-quality playground

- Designed in cooperation with children to ensure the highest possible play value
- Developed using materials that require low maintenance
- Made in Denmark
- Short delivery times
- We prepare detailed design proposals to show what your new playground will look like

Specifications

Order number
LC130G: In-ground mounting

Product dimensions (LxWxH)
339 x 313 x 498 cm

Area requirement incl. safety distances (LxW)
648 x 623 cm

Maximum fall height
187 cm

Age recommendation
From 3 years

Approximate installation time
2 persons 6 hours

Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

Made with sustainable materials

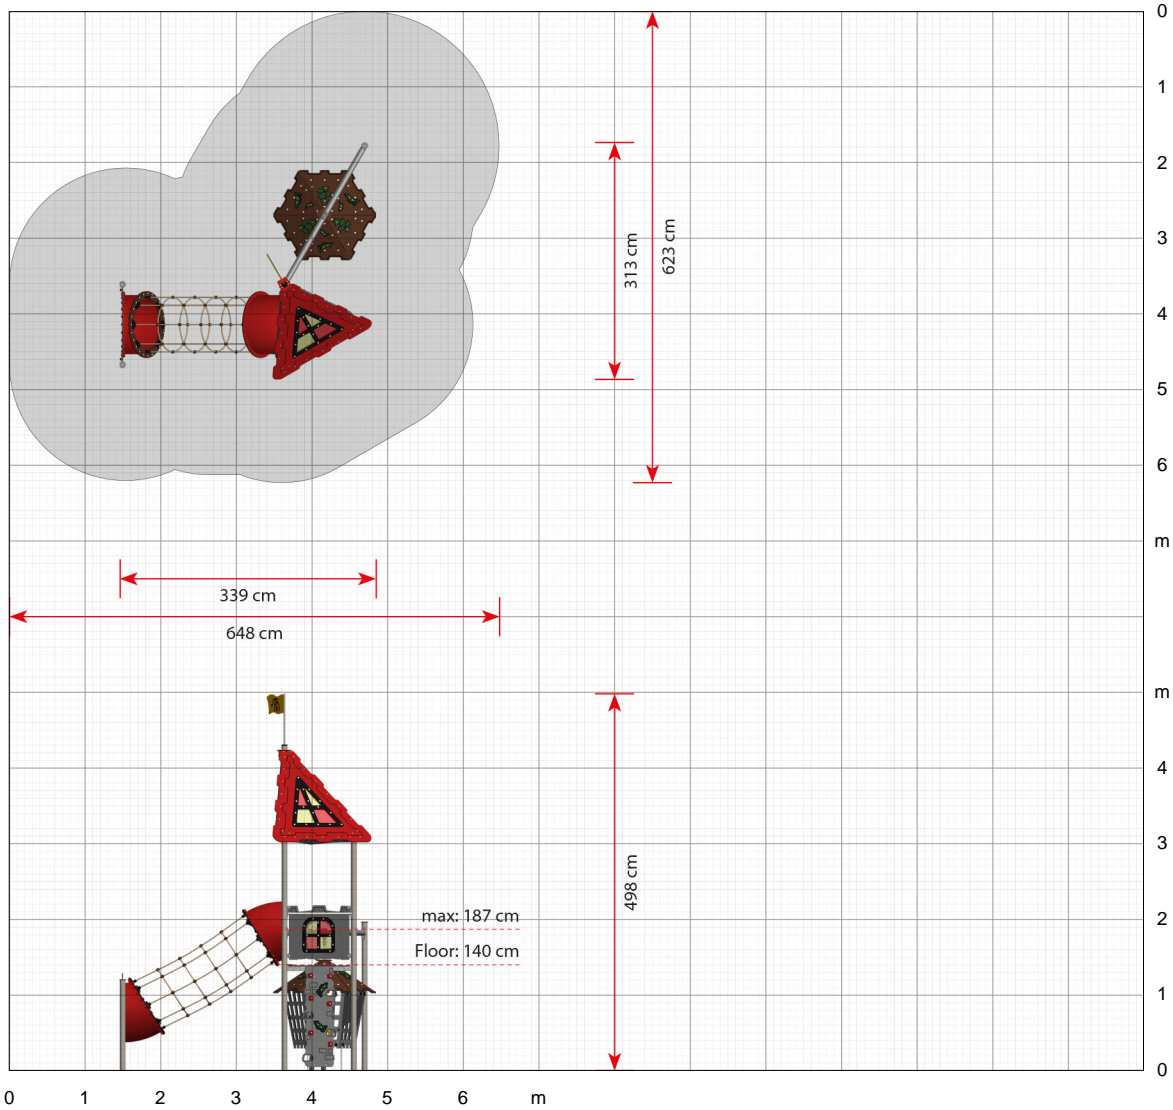

EN1176 certified by TÜV

LC130

George

Scale 1:100 (when printed in 100%)
