Two play towers for children of all ages

Lionel is a play environment consisting of two play towers. The large square platforms offer ample space for several children and feature a number of play activities. Bigger children can access the upper level via the rope ladder, while smaller children can use the non-slip steps.

Many LEDON Castle activities

The maintenance-free Lionel play system features a wealth of fun activities. In addition to the colourful roof, which transforms the sunshine into colourful patterns on the ground, the rotating ship's wheel, the knight's shield with the rotating sword, the lookout barrel with the movable telescope and the slide all provide many hours of fun.

LEDON Castle is your guarantee of a high-quality playground

- Designed in cooperation with children to ensure the highest possible play value
- Developed using materials that require low maintenance
- Made in Denmark
- Short delivery times
- We prepare detailed design proposals to show what your new playground will look like.
- The entire Castle series is approved by TÜV SÜD in accordance with the latest EN 1176 standard
