A genuine knight's castle – ideal for playing 'the floor is lava'

Camelot has all the hallmarks of a real knight's castle with four towers which are connected by swaying suspension bridges and challenging rope tunnels. Anything can happen inside the castle's four walls. Camelot is arranged to allow children to move all the way round the structure, making it extra fun to play 'the floor is lava' or 'tag'.

Activities for knights and princesses

With rope tunnels, a rope ladder, a climbing net and climbing wall panels, it takes a lot to conquer Camelot. In addition to challenging children's gross motor skills, Camelot also offers other age-appropriate activities, where imagination, balance and fine motor skills are put to the test. For example, try the movable telescope on the lookout barrel, or find the hidden diamonds concealed behind rubber slats in various places.

LEDON Castle is your guarantee of a high-quality playground

- Designed in cooperation with children to ensure the highest possible play value
- Developed using materials that require low maintenance
- Made in Denmark
- Short delivery times
- We prepare detailed design proposals to show what your new playground will look like.
- The entire Castle series is approved by TÜV SÜD in accordance with the latest EN 1176 standard

Specifications

Order number
LC400G: In-ground mounting

Product dimensions (LxWxH)
736 x 706 x 498 cm

Area requirement incl. safety distances (LxW)
1119 x 981 cm

Maximum fall height
225 cm

Age recommendation
From 3 years

Approximate installation time
2 persons 22 hours

Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

Made with sustainable materials

EN1176 certified by TÜV

LC400 Camelot

Scale 1:100 (when printed in 100%)
