## Luxi – an activity-packed play village

Luxi is one of two play villages in the **Explore** universe, where the playhouses are joined to create larger playhouse environments. The play village makes it possible to divide the playhouses into zones, so that lots of children can play together in different places around the playhouses without disturbing each other. The play villages are very practical at, for example, institutions, where the playhouses need to accommodate large numbers of children.

The play village houses many different activities, providing opportunities for concentration and role-playing while also supporting children's creative, social, motor and cognitive development. Luxi has, among other things, a corner shop panel, where children can start to learn about number and play shop, and two kitchens and stove play panels, which encourage role-playing. In addition, several children can play together at the splash table with sand and water, and in this way stimulate their sense of touch, fine motor skills and creativity.

## Play village with integrated crawl tubes

Luxi is the only play village that features integrated crawl tubes. The tubes add a fun dimension, and make it possible to involve both playhouses when playing. When a child crawls, it develops its motor skills, while the cross-movements between its arms and legs helps to strengthen the connection between the right and left hemispheres of the brain. This is an important part of the developmental process, which helps to prepare the child for learning to read, for example.

The crawl tubes are built from LEDON's tube slide tubes, which are approved worldwide according to strict safety and quality requirements.

### Specifications

**Order number**  
EX096G: In-ground mounting

**Product dimensions (LxWxH)**  
540 x 540 x 166 cm

**Area requirement incl. safety distances (LxW)**  
849 x 849 cm

**Maximum fall height**  
166 cm

**Age recommendation**  
From 1 year

**Approximate installation time**  
2 persons 8 hours

### Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

Made with sustainable materials

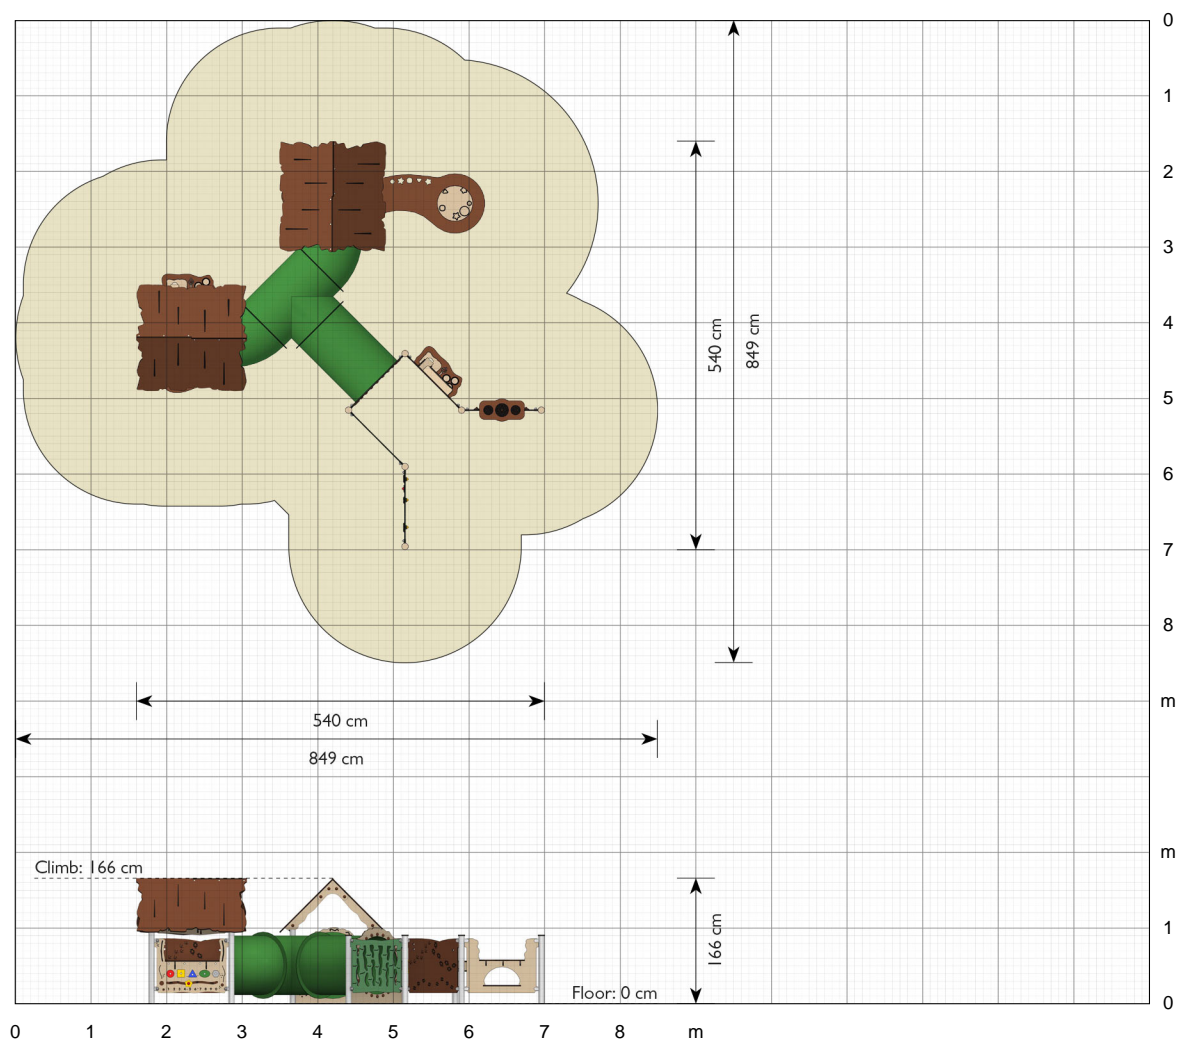

EN1176 certified by TÜV

# EX096

## Luxi

Scale 1:100 (when printed in 100%)
