## A play system that creates space

Caja is a play system which closely resembles Explore EX111 Atox. Nevertheless, Caja has a play enclosure that creates a sense of space, yet which is nevertheless a separate area. Around the play enclosure it is possible to play with the kitchen and the splash table, which is situated just around the corner. Both the kitchen and the splash table inspire role-playing, where children can learn to compromise, negotiate and resolve conflicts.

## A low-maintenance play system

The entire Explore series is built from materials that require very little maintenance. In practice, this means that you don't have to worry about painting or oiling, or whether the system is affected through being exposed to the wind and weather. Therefore, you can rest assured that the system will remain as safe as when it was installed. If you have any questions or require further information, you are always welcome to call us on tel. +45 74 82 65 65 or email us at [info@ledon.dk](mailto:info@ledon.dk).

## LEDON Explore is your guarantee of a high-quality playgrounds

- Designed in cooperation with children to ensure the highest possible play value.
