All-round play system with many activities

Lumka is an all-round play system with space for many children. Lumka requires an area of 7 x 9 metres. The play system offers good climbing opportunities on the climbing net and up the vertical climbing wall panel. The upper level in the tower can be accessed from the climbing wall panel or via the non-slip ramp. From here, there is access to a high-speed slide. In addition, Lumka also has the popular jungle hut, which you can read more about below.

Swinging jungle hut

The swinging jungle hut is a real favourite with children. The jungle hut was developed to meet children's wishes for a den, where they can hide away and exchange secrets. The swinging sensation makes the jungle hut experience even more fun.

LEDON Explore is your guarantee of a high-quality playgrounds
