

LEDON quality play equipment for 50 years

LEDON is a family business which has been producing Danish quality playgrounds for children around the world for three generations. Our play equipment is based on solid Danish craftsmanship, quality and play value. Therefore, we guarantee to provide the best play experiences.

We develop our play equipment together with children, as they are real play experts. In this way, we can design play equipment that is fun and which at the same time supports children's natural development. This is true play value.

A playground must be able to withstand being used for many years. LEDON has therefore specialised in using materials with an extended warranty and which do not require special maintenance. We also make a point of using materials which are as sustainable as possible. For example, our polyethylene boards are made using a high proportion of recycled plastic, and we also recycle our production waste.

A new playground can be difficult to envisage, which is why we offer to prepare design proposals, so that you can see what your new playground will look like. Moreover, as our production is based in Denmark, we have short delivery times.

Specifications

Order number
1175: In-ground mounting

Product dimensions (LxWxH)
334 x 227 x 224 cm

Area requirement incl. safety distances (LxW)
334 x 687 cm

Maximum fall height
178 cm

Age recommendation
From 1 year

Approximate installation time
2 persons 3 hours

Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

Made with sustainable materials

EN1176 certified by TÜV
