

LP050

Raft, balance beam

Printet 2022-01-07

A wobbly experience

The raft offers a wobbly experience. Featuring three springs, the raft is a true paradise for exercising balance and gross motor skills. Your sense of balance is one of the most important functions in the body. Having a well-developed sense of balance and good gross motor skills gives children the courage to test themselves in other ways – running, jumping and sprinting. It also encourages children to play new games with other children, which enhances their social skills.

Raft games

The raft is an ideal element in a larger balancing course, possibly with the stepping stones. Many older children also find the raft fun for balancing competitions. Here, it allows them to find out who is best at keeping their balance while several people are on the raft.

Why buy LEDON Pirates?

- Developed in collaboration with children.
- Can be infinitely expanded with ships, treasure islands and suspension bridges.
- Ships in many different price ranges.
- Ships can be combined with play systems from LEDON's other theme worlds.
- Unique playground in modular set-up.
